## EDUCATION

### Bachelor of Engineering in Electrical and Electronics

2021-2025

Basaveshwar Engineering College, Bagalkot

GPA: 7.93

## SKILLS

- **Languages & Problem Solving:** C++, SQL, JavaScript, TypeScript, HTML, CSS.
- **Frameworks / Libraries:** React.js, Next.js, Express.js, Node.js, Tailwind CSS.
- **Databases:** MongoDB, MySQL.
- **Tools & Platforms:** Git, GitHub, Visual Studio Code, Postman.

## PROFESSIONAL EXPERIENCE

### Software Development Intern — Kodnest Technologies, Bengaluru

June 2025 – Dec 2025

- Developed MySQL modules for internal applications, improving data handling efficiency.
- Debugged and optimized frontend and backend components.
- Collaborated with senior developers to write clean and scalable code.
- Tested REST APIs using Postman to ensure accurate responses.
- Improved UI responsiveness through JavaScript and React enhancements.

## PROJECTS

### HealthGPT for Rural Areas [GitHub](#) | [Live Demo](#)

May 2026 – June 2026

React.js | TypeScript | Node.js | Express.js | MongoDB | Gemini AI | Tailwind CSS | Web Speech API.

- Built **HealthGPT**, an AI-powered multilingual healthcare assistant supporting English, Hindi, and Kannada.
- Developed features such as symptom guidance, voice-based interaction, medicine reminders, and chat history.
- Integrated **Gemini AI**, React, Node.js, and MongoDB to deliver personalized health assistance.
- Designed a responsive and user-friendly interface with healthcare facility discovery and emergency support features.

### E-Commerce Platform [GitHub](#) | [Live Demo](#)

Dec 2024 – Jan 2025

React | Node.js | Express.js | MongoDB

- Developed a full-stack MERN e-commerce application with product browsing, cart management, and order processing.
- Built RESTful APIs using Node.js and Express.js to handle products, users, and orders.
- Implemented JWT-based authentication and authorization for secure user access.
- Designed and managed MongoDB schemas using Mongoose to support efficient CRUD operations.
- Deployed the application on Vercel, ensuring responsive UI and smooth client-server interaction.

### Learning Management System (LMS) [GitHub](#) | [Live Demo](#)

July 2025 – Aug 2025

React | Node.js | Express.js | MongoDB

- Developed a full-stack LMS enabling user registration, login, course enrollment, and dashboard management.
- Created a component-based and responsive frontend using React.js for instructors and learners.
- Designed and implemented REST APIs for user, course, and enrollment management.
- Integrated MongoDB with Mongoose for backend data modeling and database operations.
- Deployed the application on Vercel for scalable and reliable access.
